Hendersonville Times: Many visitors the number that went to the country has been very limited; but it is a fact that within a radius of ten miles of Hendersonville people are boarding where before visitors were almost unknown. It is estimated that more than 100 are in the Mills' more and more expressive and useful. And as there is no limit to the growth of mind or heart, if properly used, so there is no reason why we should grow old. Why should we not be as the Master, of whom it is ever said, "Thou hast the dew of thy youth."—Wesleyan Christian Advocate in the country this season. Heretofore river district alone.

PUBLIC OPINION

The platform of the Maryland democracy, however, impresses us as a very strong though temperate presentation of the party's case. It provides a ground upon which all democrats who have at heart the good of their organization and the advancement of its principles can meet in perfect harmony. The Sun resents and denounces it for that reasonnot because it falls short of being a cour-

The British papers sometimes get things straight when commenting on have met lately reports the prospect for American affairs. The statement by the fine crops as excellent. On Mr. Hodge's London Chronicle, in view of the Brown big orchard at Southern Pines, 100 men and 60 boys and girls are busy picking peaches.

Miss Susan Washington Graham, daughter of Hon. A. W. Graham, of Oxford, who graduated at the Frances Hilself of the Specific purpose of propagating doctrines of monopoly, is borne out not only in the case of the Rhode Island school, but by the Chicago university and several other noted institutions of learners. several other noted institutions of learning in the north.-Houston Post.

With a currency, or money, sufficient in quantity and good in quality, banks and bank notes subserve many useful purposes; the banks as collectors and distributors of currency in their deposits and loans, while their notes constitute a convenient substitute for money and a desirable portion of an abundant currency when there is either sufficient money (standard money of final redemption) to secure these notes in popular confidence and in fact, or when the supply of money is great enough to impart convertible solvency to any property assets upon ed all day and at times was very exciting. latter assets are as good as gold or silver coin when the money volume is just in proportion to the demand, as in such case prices which really make them preferable ment of safe banking, either as security ducted as such. for the notes, or for loans of these notes: and the banks do a safe and useful business that contributes largely to the convenience and prosperity of the community. -Norfolk Pilot.

The safety of the country lies in the enactment of good laws and their faithgood citizen should be devoted to making making their administration as perfect as human limitation will allow. Every excursion outside of the law-every resort to what we have heard called "natural justice"—is an admission that our scheme of government by law has failed, and a concession to the idea that government should be by men and not by law. If we permit the punishment of criminals to become the duty of irresponsible mobs, we ought to be prepared to expect a complete breakdown of our system of government. Gradually there will appear among in this country who have no connecus men who can direct and control the tion with the Standard Oil Company. consent, but on the various selfish influences which enable one man to control others in their relations with the public.-Jacksonville Times-Union.

If raising tariff duties so as to increase the cost of living, without in the smallest degree increasing wages, is to promote the general welfare and make everybody prosperous and contented, then it cannot be denied that the Dingley bill is a success.—Columbus (Ohio) Press.

When genius grasps the prize, the applause should he hearty. The Hon, Ki Gudger, one of the most original, meritorious and select political notabilities where, but the church will be built at no of North Carolina, was appointed consul to Panama the other day, and the congratulations of an admiring country are coming in upon him like a flood. -New York Sun.

The Paris Gamin.

The gamin has always been infatuated "the Little Corporal" in his gray overcoat, but he, however, not being logical, is fond of liberty. Delacroix has painted him black, with gunpowder under his torn cap, standing, pistol in hand, on one of the street barricades during the revolution of 1830. In 1848 we saw him scale the very throne of Louis Phillippe at the Tuileries, and have himself carried about on it in triumph. Always impulsive, he is as ready to save as to destroy, and will leap into the Seine to rescue a drowning child of his own age without ever stopping to think whether he knows how to swim or not.

What is he doing when not playing tops or marbles in the gutter? Sometimes he is a plasterer's help, and so powdered with white dust as to seem Pierrot himself; sometimes an apprentice in a green Greenville jail for stealing a watch and pistol in Grifton. "Snow Ball" has been ed in a questionably white cotton suit from head to heels, balancing his basket on his head as he saunters along; or a printer's "devil" in blouse and paper cap; or he pushes a hand-cart, or sells flowers, newspapers, matches, etc.; or he may join the army of young telegraph messengers. He may, by chance, rise to the position of errand boy in a lawyer's office, or even soar to the elegance of a painter's

in McClure's. Young and Old Where should the line be drawn when

a man or woman ceases to be young and is to be number with the old? We see and hear a great deal that is ever suggesting and the little fellow turned over like the question, and almost as much that he was dead, but next morning was up hollowing and well.

Yours respectfully,

JJ. N. McELROY.

The question and animos as inches that suggests the answer, by the latter suggestion is so varied as to ave us in perpetual confusion. To the pung, people grow old very soon; to the d they remain young a long time. Again some people actually grow old very scon, by the time they are thir:y; while others are young at sixty, or eighty, or as long as they live. The line will have to be a movable one, one that can be adjusted to different individual, and for some individuals at different periods of their lives. The truth is that men and women are always young as long as they continue to grow. And in that, the mind and soul control While these continue to grow in the right way in the high things of humanity, the from the south have found places to board | life is young, and even the body becomes more and more expressive and useful.

New York, St. Louis, Chicago,

A Savanah Firm Enters the Southern Field.

A FIGHT IN OIL TRADE.

Savannah and several other neighboring cities will shortly have competition in the oil business. The Dixie Oil Company has been organized, and will shortly begin business. The oil com-Company, of this city, and will be con-

Since the Tidewater Oil Company went out of business the Standard Oil Company has had the field all to itself in this territory, and the natural supposition, when it was announced that the Dixie Oil Company would enter the laws what they should be, and to the field, that it was for the purpose of bucking the Standard. Mr. S. P. Shotter, who was seen yesterday in regard to the matter, said that such was not the case.

"So far as any direct opposition to the Standard Oil Company or any other individual oil interest is concerned," said Mr. Shotter, "such a rumor is absolutely without foundation. There are hundreds of large dealers in petroleum tion of the trade. Our ideas are exceedingly modest and moderate and place ourselves in a position of what is and surrender their game to General called 'bucking the Standard.' In fact, Miles's command at the Pine Ridge fined oils, whereas we propose to turn our attention more to lubricating oils of the very highest type. We believe that there is a good demand for firstclass goods without regard to cheapness of price, and it is goods of that character that we propose to place on the market. We have been led into this business through the fact that we in our regular naval stores business and we can do a moderate oil business at these points without any addition to our fixed charges, and at the same time employ a certain amount of idle capital which the existing duliness of without suffering agony, until a box of

vorable direction.' Wilmington, Charleston, Savannah, skin troubles De Witt's Witch Hazel Pensacola, Mobile and New Orleans Salve is unequalled. R. R. Bellamy. and an office will probably be established at Jacksonville. The oil company will similarly have establishments at each of these places, but the business of the company will be concompany. While giving attention chiefly to lubricating oils, the illuminating business will not be neglected, and the local trade in each of the cities named will be looked after in the same manner as it is at present supplied by the Standard. Oil will be kept in tanks and supplied to the trade by tank wagons.

"We already have the largest rosin oil plant in the world at our works here," said Mr. Shotter. "Our tanks there will be used for the storage of petroleum and other oils and other tanks will be added as needed. Warehouses have also been secured for storage purposes. Petroleum will be brought down by schooner. While the Standard company controls about 80 strong, its warning not too earnest. It is per cent of the wells in the Pennsylvania oil region, the other 20 per cent. includes a very large oil production, which must be disposed of through other channels, consequently we anticipate no difficulty in securing all the oil needed for our business. The transportations companies in this section use a very large amount of lubricating oil, and if we can supply only a portion of this trade we shall be more than satisfied. As we do a large business with most of the railroads leading to the west from this section, it is only natural that we should expect some consideration from them when it comes to the purchase of oils."

Savannah will be the headquarters of the Dixie Oil Company, with branches at the other cities named. The capital of the company is \$100,000. Mr. Shotter has another enterprise which will shortly be in operation, which, however, does not directly interthese gamins have quick and bright minds New Orleans. Rosin oil and petroleum engaged in the manufacture and supply of both, an axle grease factory is a natural addition to the enterprise of much larger territory for this article that can be commanded from that point.-Savannah News, August 1st.

THE INDIAN AS A HUMORIST

A Contradiction of the Belief Generally Entertained "Most every body imagines that the North American Indian is a solemn and

dignified individual," said the ex-army officer, as he leaned gracefully back in his chair and lazily puffed away at his after-dinner cigar. "Before I met a red-skin I don't know how many times I had heard it asserted that as a race they were as destitute of humor as patent office report or a graven image. But when I got acquainted with the aboriginal in his native wilds I found that this was a mis-

"The Indian is a born humorist. There isn't the slightest doubt of that. The great trouble is, however, that his humor runs chiefly to practical jokes. I remember one time meeting (or, rather discovering a few rods distant) a big Indian when I was out walking alone about two miles from camp.

'Well he discovered me about the same ime, and the minute he did so he let out a terrific warhoop, began flourishing his tomahawk and started for me on a run. He chased me until I keeled over from exhaustion, and then, instead of scalping me, as I naturally expected he would from his previous actions, he assisted me to my feet, with a broad grin on his face, and grunted:

"'Ugh! Indian only yell for fun. Too bad scare white man. Injun don't want scalp. Want chew terbacker!' "The whole proceeding, it seemed, was only his humorous method of striking a him-but, unfortunately, I had left my

weapons in camp. "And again, I remember the time a lot very little of this business will satisfy of Indians who had been fooling around us. We certainly do not intend to the war-path were forced to capitulate agency; and the last thing the cusses did before turning in their shooting-irons was to load every old musket of the lot half way to the muzzle with slugs and nails and scrap iron and other bric-a-brac of that sort, and then hang around, at a safe distance, to see the fun when a bon-fire was made of the guns, as was the

usual rule in such cases. "But, luckily for the soldiers, they discovered the trick in time, and the expected fun failed to pan out. Still, we must have in the south Atlantic and gulf take the will for the deed, and this little states seven offices already established incident goes to show that as a practical joker the wily aboriginal is not to be lightly sneezed at."-Detroit Free Press.

John Griffin, of Zanesville, O., says: "I never lived a day for thirty years Senator McLaurin is quite prepared trade does not employ in any more fa- De Witt's Witch Hazel Salve cured my piles." For piles and rectal troubles, The Shotter company has offices in cuts, bruises, sprains, eczema and all

The Deadly Gold Fever

Whatever may in other respects be thought of the heavy royalty imposed by the Dominion government upon gold minducted by the forces of the Shotter ing in the northwest territory, in one respect it must be welcomed as a good thing. That is, in that it may discourage many from going to the Clondyke. Almost anything that does that is to that extent to be commended.

'For God's sake," telegraphs ar Alaskan expert, "stop the mad onrush of 'tenderfeet' to "the Clondyke country, 'Not one-tenth of those now on the way 'can possibly get over the divide into the 'lake region, where lumber must be "whipsawed and boats built. This sea-"son there will be more blood on the "Chilkoot trail than gold will wipe up, "and gaunt want will beget murder during 'the long dark winter. It has become al-"most the duty of the Government to

"warn people away." That is to exactly the same effect as what The Tribune has already said. The rugged, impulsive language is not too the simple truth that every man who goes to Klondyke without the amplest reparation incurs the gravest peril of death. The probability is that a large proportion of those now hastening thither will never return alive. With winter will come famine, and before the unloosed passions of starving men struggling for existence the rights of those who have suplies of food will be but a slight barrier. Before another summer bread may be more valuable than gold, and blood more

freely spilled than either. lust of gold is powerful. But the love of life should be more powerful Men should halt and consider well before they put their lives in peril for the sake of a mere chance to gather gold. It they rush on heedlessly the march to the Yukon will be a march to death, and the gold fever of the north prove a deadlier epidemic than the yellow fever of the

A Mass of Legislation The mass of legislation or attempts a

legislation, says Mr. Godkin in his article upon The Decline of Legislatures in the July Atlantic, is something startling. I have been unable to obtain records of the on the wing, and assimilate it without grease and the Shotter company being acts and resolutions of all the states the same year. I am obliged to take those of Arkansas for the year 1893, four other states for 1894, ten for 1896, and the rest for 1895. But I have taken only one year badly, and finally are arrested for mis- the company. The factory is to be lo- for each state. The total of such acts and demeanors. Some of them, true to their cated at New Orleans, because of the resolutions is 15,730, and this is for a pop-instincts, manage to be amusing even much larger territory for this article ulation of 70,000,000. Besides this congress in 1895-96 passed 457 acts and resolutions But the amount of work turned out is really not very surprising when we consider the number of the legislators. There are no less than 447 national legislators, Boston, August 5.-A special to The and 6,578 state legislators, in all 7,025, ex-Globe from Providence, says: The sus- clusive of county, city, and all other local pect in Kingston jail on the supposition authorities capable of passing rules or orthat he had something to do with the dinances. At this atio of legislators to burglary at the residence of R. G. Dunn population, 4,000 at least would be engaged recently has been identified as William on the laws of Great Britain, without any Collier, a theological student from Mem- provision for India and the colonies, 3,800 phis, Tenn., and a letter received from his on those of France, about 5,000 on those of father today conveyed the information Germany, and 3,000 on those of Italy.
